## Kent Island Restoration Project

### Help Protect Bolinas Lagoon

Kent Island is a unique place within an internationally treasured lagoon. This historic island is overcome with invasive weeds, but you can make a difference by joining our Restoration Plant Removal Program. Help remove these pesky invaders and restore important habitat for native plants and animals!

Join Marin County Parks and its partners to get hands-on experience restoring Kent Island while enjoying the beautiful landscape of Bolinas Lagoon! Attend a public volunteer day or organize a special day with your office, school, or community group!
