

SANCTUARY EXPLORATIONS

GRAY WHALE WATCHING

Saturday, January 18, 2020 9:00am-12:00pm

Witness the mighty gray whale migration on this half-day cruise. Join our sanctuary naturalists as we venture into the migration path of the gray whales as they head through our national marine sanctuaries, traveling from Arctic feeding grounds to Baja California breeding grounds. Learn about their natural history, their recovery from near extinction, and the survival challenges posed by their roughly 12,000 mile round-trip journey in a changing ocean environment. Discover the natural history and adaptations of the seabirds, porpoises, seals, and sea lions we encounter.

BOOK IT!
